has customers
like these

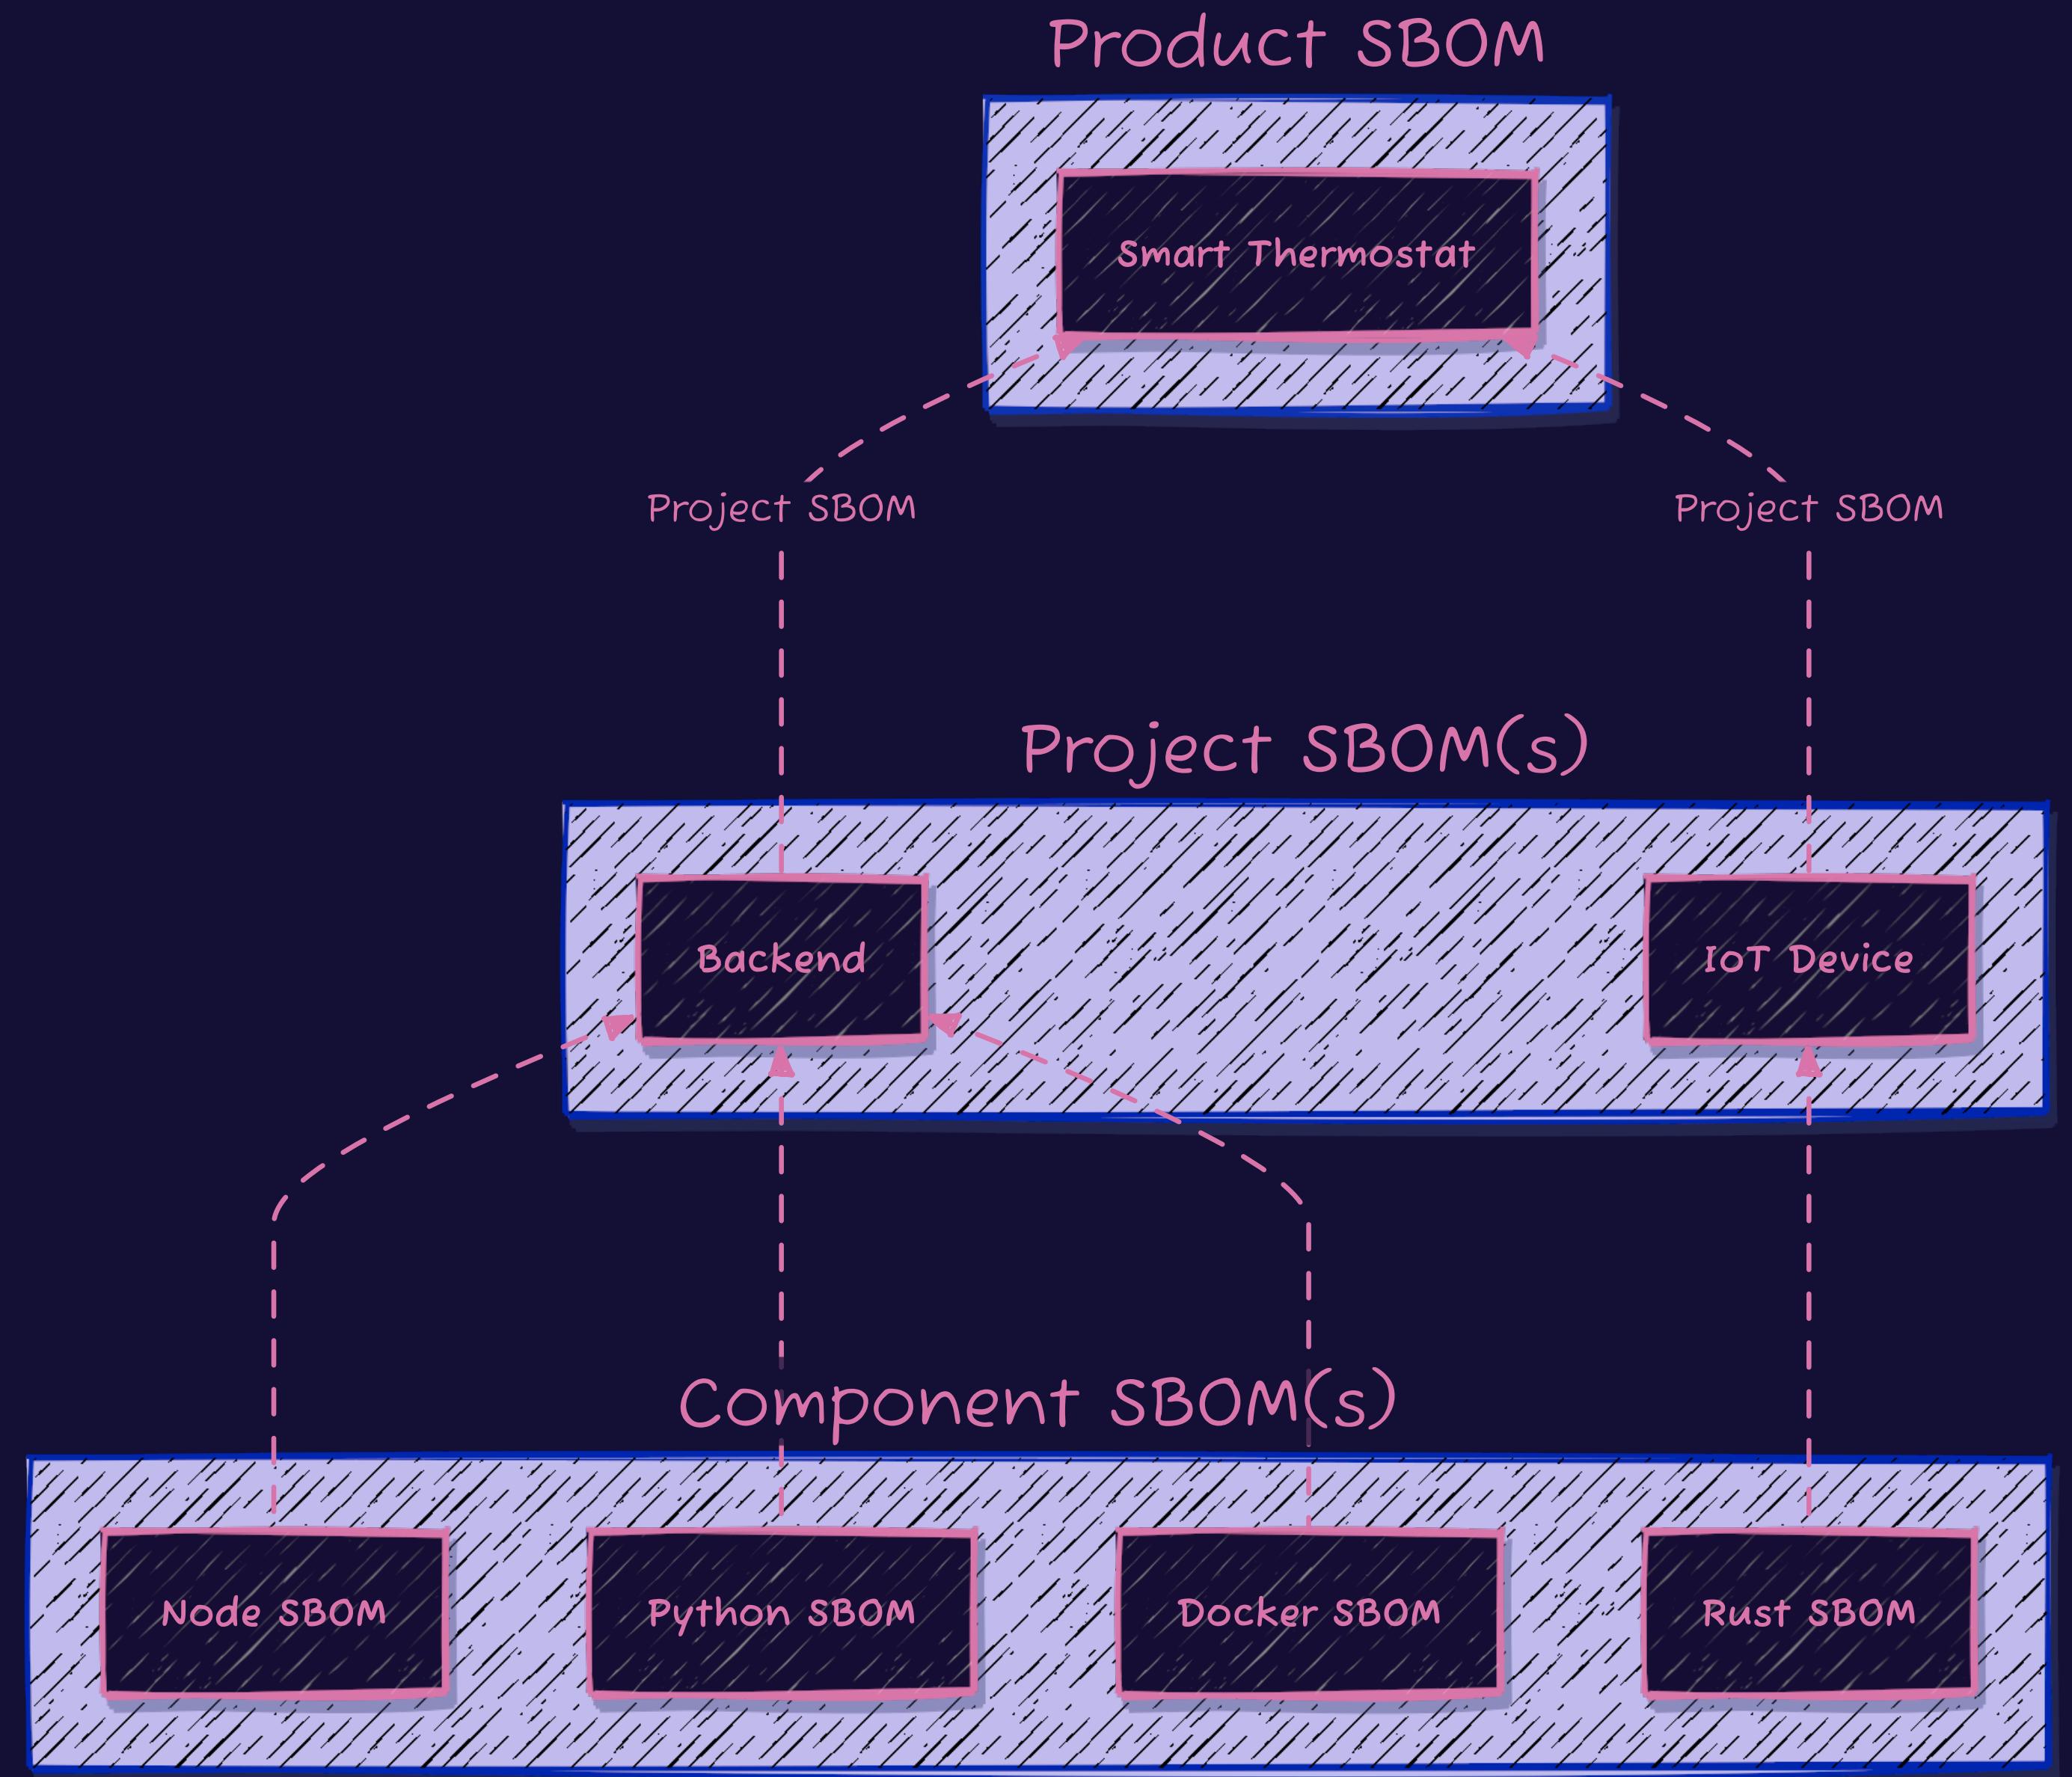

Why it makes sense.

The screenshot shows the sbomify application interface. On the left, there is a sidebar with the following navigation items:

- Dashboard
- Product
- Project
- Components** (highlighted)
- Settings

The main content area is titled "Components". It contains the following text:

A component is an SBOM for a given component (such as a micro service or device).

Below this, there are two buttons: "Create new component" (+) and "Remove component" (-). A list of components is displayed, each with a checkbox, a circular icon, and a name:

- Component 1
- Component 2
- Component 3
- Component 4
- Component 5
- Component 6
- Component 7

Each component entry has a horizontal bar with several colored segments (light blue, dark blue, grey) followed by a small black dot.

The screenshot shows the sbomify application interface. On the left, there is a sidebar with the following navigation items:

- Dashboard
- Product** (highlighted)
- Project
- Components
- Settings

The main content area is titled "Product". It contains the following text:

A product is an aggregation of one or more project SBOMs.

Below this, there are four buttons: "Create new product" (+), "Remove product" (-), "Edit product" (pencil icon), and "Download product SBOM" (download icon).

A list of products is displayed, each with a checkbox, a circular icon, and a name:

- Product 1
- Product 2
- Product 3
- Product 4
- Product 5
- Product 6
- Product 7

Each product entry has a horizontal bar with several colored segments (light blue, dark blue, grey) followed by a small black dot.
